Reasons for Allowance

Claims 1-25 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: the best prior art of record, Tran, taken alone or in combination of other references, does not teach or fairly suggest a method or an apparatus comprising, among other things, a plurality of first control circuits coupled to the buffer, wherein each of the plurality of first control circuits corresponds to a respective group of the plurality of groups and is configured to select an entry from the respective group for potential reading from the buffer, and wherein each of the plurality of first control circuits is configured, in the event that the delete pointer indicates a first entry in the respective group and the insert pointer wraps around the buffer and indicates a second entry in the respective group, to select the first entry if the first entry is eligible for selection, as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
